OUR HISTORY

Diotron was established in 1985, and with over 40 years in the communication and electronics field, has provided us with long-lasting experience and a competitive advantage.

Our commitment to professional service has earned us a loyal and growing diversified customer base that varies from private individuals to large corporate, government departments and SME's (Small and Medium Enterprises).

No customer's needs are too small or too big for us!

We are committed for the long haul and seizing opportunities. We act according to our beliefs about what the future hold and don't base it on the economy.

MISSION & VALUES

OUR MISSION

We are committed to fulfilling and bettering the need the customer has, and providing them with exceptional service. We continuously strive to provide the widest range of high quality, unique and competitively priced products and services to the various global sectors.

It is our number one priority to keep our customer happy and offer an improved service that they are not generally used to. We are willing to improve so we can win the customer at the first call and retain them thereafter.

OUR VALUES

- **Integrity.** Be real! We uphold the highest standard of integrity in all our actions.
- **Quality.** Providing the highest quality products and services, that delivers premium value to all our customers.
- **Personal accountability.** We are personally involved and accountable for delivering on our commitments to ensure customer satisfaction.
- **Respect** for all people.
- **Passion** for what we do.
- **Never stop learning, and always have FUN!**
- **A will to win.** A suit and tie are not needed to make money! And while making money do so without doing evil.
- **Teamwork.** We work together, across boundaries, to meet the needs of our customers and to help our company win.
